

SME EVENT : BSJV VENDOR HSSE ENGAGEMENT

September 17, 2014 - Brunei Shell Joint Venture Companies (BSJV) today conducted a SME Event focusing on Health Safety Security and Environment (HSSE) with the aim of developing the HSSE capabilities of the SMEs.

The event was aimed at preparing the SMEs for the upcoming BSJV tenders and to provide clear insights on fundamental HSSE requirements during the contract execution period. The BSJV companies are committed to create a culture where everyone “chooses to be safe” hence HSSE is a critical element and remains as top priority to ensure that diligent tendering process is carried out from the selection of contractors during the pre-award stage to the post-award contract management.

HSSE remains the top priority for BSJV, reflecting an attitude of zero tolerance for accidents. Safe delivery of projects and safe operation of facilities are critical for BSJV’s success and a goal for delivering the business with zero injuries to BSJV and Business Partner personnel, creating an Incident and Injury Free Workplace.

As such, this event created an opportunity to encourage the SMEs to be more open and convey their concerns so that these SMEs can grow and develop their competencies to participate for upcoming tender opportunities and SMEs can manage their current contracts effectively.

Topics such as HSSE Capability Questionnaire, Contract HSSE Plan and HSSE Key Performance Indicators (KPIs), Milestone Zero, Post Award HSSE Requirements and General HSSE Information were shared with the vendors followed by a Question and Answer session to encourage discussion that is beneficial for the SMEs. Understanding and managing HSSE risks is vital for long-term sustainability in all aspects of BSJV business and the local oil and gas industry.

ENDS.
