- Jesus Enrique Mora Marin, Mitsubishi Executive of BMC
- Yasuhisa Tsukamoto, Itochu Executive of BMC

Distinguished Guests,

Ladies and Gentlemen,

Good morning,

I am delighted to welcome you here this morning and thank you for being here today. What a special occasion it is today for all present, as we celebrate the 10th year anniversary of the warm partnership between Brunei Shell Petroleum Company (BSP) and Brunei Methanol Company (BMC).

Today is a remarkable milestone of our partnership for 10 years and a great opportunity for us to reflect on our journey together in overcoming obstacles and achieving success together.

Throughout the past 10 years, the bond between the two companies has grown and prospered through delivering more than 200 billion cubic feet of gas and recently, enhancing our gas sales agreement to ensure a more stable supply of Natural Gas and implementing minimum gas supply for a safe and efficient operation after a shutdown.

BSP have been very fortunate throughout the past decade to have supported BMC as a pioneer of the downstream diversification agenda of the country of Brunei. We are also proud to have supported BMC as it pioneered the pilot hydrogen plant which represented the close ties between Brunei and Japan. I am looking forward to further this relationship even more and continue supporting BMC as it widens its reach to deliver high quality products not only in Asia but beyond.

On behalf of BSP, I extend my most sincere gratitude to BMC for their commitment in being a responsible, collaborative and safe business partner. I am confident that the partnership between our companies will continue to thrive and prosper in the years to come.

Thank you.
